Cable Prep Work

Overview of work:

- I was doing office work all day today. The Cable field work was being covered by S. Daouk, V. Altimarano, & L. Woo. See their diaries for details of the Cable field work.
- At 08:00, I arrived at the pier 7 office.
- From 08:00 until 09:30, I did misc office work (checked email, got IT support to help fix some computer issues, filled out vehicle mileage log, etc).
- From 09:30 until 10:30, I searched PMIV & downloaded submittals & RFIs related to upcoming Cable field work.
- From 10:30 until 12:00, I started the review of Submittal 2687R00 (Jacking Saddle Jacking Plan).
- From 12:00 until 12:30, I ate lunch.
- From 12:30 until 14:00, I continued the review of Submittal 2687R00 (Jacking Saddle Jacking Plan).
- From 14:00 until 15:00, I went to the field to make a quick check on the status of the field work.
- From 15:00 until 15:30, I talked with Warren Collins to give him an update from the field & to ask him about some details of the upcoming load transfer operations.
- From 15:30 until 16:30, I finalized several diaries written over the past week, wrote my diary for the day, & checked email.
